

Goal zero battery Togo

What is a goal zero Yeti portable power station?

With a variety of high-powered outputs, storage capacities, and multiple ways to recharge, a Goal Zero Yeti Portable Power Station will keep your gear running, indoors and out. Our award-winning line of power stations give you power at the push of a button, all without the noise, fumes, or maintenance of a traditional gasoline-powered generator.

What are goal zero power products?

Here's a quick and dirty lesson in power: All Goal Zero power products have a number in their name, ex. Venture 35, Flip 36, Goal Zero Yeti 500X. These numbers refer to the Watt Hours (Wh), or the amount of energy that can be stored in each battery, and can help estimate how long your gear will run from each power bank or power station.

What is Goal Zero portable power?

Empowering Your Adventures with Goal Zero Portable Power At Goal Zero, our mission is to keep you powered and connected, no matter where your journey takes you. Our robust collection of portable power banks, like the Sherpa 100AC, is designed to meet a variety of needs.

Who is Goal Zero?

Innovators in power stations : Goal Zero created the portable power category 10 years ago, presenting a new way forward in portable energy use at home, on the job, and off grid. Our products are engineered with precision here in the U.S. Our team is based along the Wasatch front in Salt Lake City, Utah. Hi.

What is a goal zero gas generator?

Goodbye Gas Generator. Hello Yeti X. With a lithium-ion battery at its core, the Goal Zero Yeti X equips you with safe, clean, portable power for camping, tailgating, off-grid events, workshops, and emergency home backup. Increased 2000W AC (3500W Surge) inverter allows you to run power-hungry devices and appliances with confidence.

How do I Charge my Goal Zero Yeti lithium?

Plug into your vehicle's 12V outlet using the Goal Zero Yeti Lithium 12V Car Charging Cable. NOTE: Do not attempt to charge your Yeti Lithium from a 12V source using any other cable. Doing so may cause damage to the unit. The USB-C port is bi-directional so you can charge your power bank while using it to charge devices.

Avoid draining your battery completely every time Staying between 20% and 80% State of Charge will help your battery last longer than draining it or charging it completely on each use. However, if the battery is not allowed to periodically reach 0% and 100% the State of Charge data can become less accurate over time.
