

Where is Goldbeck Solar located?

German developer Goldbeck Solar said it has switched on a 204 MW solar plant in Zwartowo, northern Poland. The project is the first phase of a 290 MW scheme that includes another 86 MW facility. The company invested PLN 635 million (\$128.8 million) in the 204 MW plant. Construction of the 300-hectare solar park began in the first quarter of 2021.

What's happening at Zwartowo solar park?

The Zwartowo solar park, Poland. Image by Goldbeck Solar GmbH. The construction of Poland's largest solar park is progressing with the first 204-MWp phase of the Zwartowo project already feeding clean electricity to the grid.

Why is the Zwartowo solar park important?

"For Goldbeck Solar, the Zwartowo solar park is important in two respects. Zwartowo is not only the largest plant the solar specialist has built so far, but also a symbol of Joachim Goldbeck's determination," the company said in a statement.

Did Goldbeck Solar get a loan from EBRD?

In May, Goldbeck Solar and its partner Respect Energy S.A. secured a PLN-635-million (USD 132.4m/EUR 133.6m) loan for the project from the European Bank for Reconstruction and Development (EBRD) and Polish lenders PKO BP SA (WSE:PKO) and Pekao SA (WSE:PEO). (PLN 1 = USD 0.209/EUR 0.211) (EUR 1 = USD 0.991)
