The single-phase inverter is one of the best options for residential application thanks to its smaller size and local LCD display, buttons. Also, with built-in zero-export function (external CT is needed), it offers true ease and comfort for PV system operators and installers.

High PV Input Voltage Range: The GOOTU inverter boasts an outstanding PV input voltage range, providing greater flexibility and energy utilization. Remote Monitoring and Connectivity: Utilize WIFI and GPRS connectivity to monitor your system remotely, with support for both iOS and Android platforms.
