Who is Freudenberg battery power systems?

Freudenberg Battery Power Systems, LLC, focuses on the development, production, assembly, and service of battery systems for heavy duty applications in the truck and bus, marine and mining industries, among others.

How many employees does Freudenberg E-power systems have?

Freudenberg e-Power Systems supports its customers from application development to production, commissioning and service with some 830 employees. 0+open jobs! Freudenberg e-Power Systems is a leading global supplier of emission-neutral energy systems for heavy-duty applications.

Why did Freudenberg partner with LG Energy Solution?

"The partnership with LG Energy Solution enhances our leading battery offering for the bus and truck market," explains Dr. Max Kley, CEO of Freudenberg e-Power Systems. "Together we are able to offer our customers an unparalleled range of solutions specifically tailored to the demanding requirements of this market."

The acquisition of the ownership interest underscores Freudenberg's long-term strategy of investing in electro mobility applications, focusing on battery and fuel cell technology. As of April 2022, the battery and fuel cell system activities have been combined in a new Business Group - Freudenberg e-Power Systems.

Our power cells provide unparalleled performance in charge rate, power, energy density, cycle life, and safety, all of which are integral for the electrification of demanding heavy-duty applications. As a proven partner for power cells, we continue to grow and evolve our product line to provide our customers with access to the latest in ...

We are the experts for high-performance heavy-duty battery systems and power cells, with more than 60 million miles already traveled in truck & bus applications. With a strong focus on testing, research, and development, we are committed ...

As a benchmark-setting e-mobility solutions provider, Freudenberg e-Power Systems designs, develops, and manufactures high-performance battery and fuel cell systems with exceptionally long operational lifetimes.

The acquisition of the ownership interest underscores Freudenberg's long-term strategy of investing in electro mobility applications, focusing on battery and fuel cell technology. As of April 2022, the battery and ...

Freudenberg e-Power Systems and LG Energy Solution (LGES; KRX: 373220) have signed a multi-year contract for the supply of lithium-ion battery cell modules. With a total capacity of 19 GWh, Freudenberg is expanding its capacities to meet rising demand and ensure the best possible supply for its customers in

commercial vehicle applications, such ...

Freudenberg e-Power Systems battery technology focuses on the development, production, assembly, and field service of complete battery systems for applications in the medium to heavy-duty truck, bus, marine, mining and ...

As one of the leading suppliers of emission-neutral energy systems for heavy-duty applications, we offer our customers long-standing expertise and unbeatable know-how. That's because we combine the best of both worlds by offering both battery and fuel cell systems.

Freudenberg e-Power Systems is a leading global supplier of emission-neutral energy systems for heavy-duty applications. With its expertise in battery and fuel cell technology, the company offers customized and, in particular, combined solutions for sustainable and cost-efficient e-mobility.

Freudenberg e-Power Systems battery technology focuses on the development, production, assembly, and field service of complete battery systems for applications in the medium to heavy-duty truck, bus, marine, mining and specialty applications. Thanks to our vertical integration, all energy and power system developments are carried out in-house.

Freudenberg e-Power Systems and LG Energy Solution (LGES; KRX: 373220) have signed a multi-year contract for the supply of lithium-ion battery cell modules. With a total capacity of 19 GWh, Freudenberg is ...

We are the experts for high-performance heavy-duty battery systems and power cells, with more than 60 million miles already traveled in truck & bus applications. With a strong focus on testing, research, and development, we are committed to continuously designing more optimized, more efficient, and more powerful lithium-ion energy solutions.
