

Greenlinx 3.2 kwh battery price Norway

Are greenlinx batteries any good?

The Greenlinx batteries have very limited performance reduction compared to all other domestic home solar Lithium batteries; they remain at full capacity down to zero degrees. In addition, each battery has superior charge rate of 40Amps and discharge rates of 60Amps which means faster charge and discharge capability.

Who makes greenlinx batteries?

Greenlinx have developed a range of batteries to push the technical boundaries of performance, temperature management, monitoring and technical support. Greenlinx are exclusively distributed by Infinity Innovations Ltd. in the UK and Europe. While they are quite recent to the UK market they are by no means new to the battery storage industry.

How many greenlinx batteries can be connected?

Modular - from 1 to 8 Greenlinx batteries can be connected. We are online now! Need help? Call us now on 0800 156 0191 Do you know exactly what you are looking for? Yes! Don't worry, we're here to help either way! The Lux Power energy monitoring system can be accessed via a Web hub or phone apps.

Greenlinx 3.2 kWh battery price Norway

For instance, the Greenlinx 3.2 kWh is around £1500 while the Tesla Power Wall 2 13.5 kWh is around £9500 - both coming in under the average per kWh. If you were to include the cost of replacement batteries over the lifetime of your system, some would come in at £900 - but it's not a "normal" price.

The Greenlinx batteries have very limited performance reduction compared to all other domestic home solar Lithium batteries; they remain at full capacity down to zero degrees. In addition, each battery has superior charge rate of 40Amps and discharge rates of 60Amps which means faster charge and discharge capability.

Greenlinx Harnitek uses HPD lithium to achieve market leading charge and discharge levels. Smaller than other batteries this great looking battery has inbuilt modem to allow single batteries to be monitored online. Long and short cables provided with every unit, just plug and play set up for the most efficient battery we have ever distributed.
