

What is the Aquion battery system?

The Aquion battery system is a reliable and flexible modular energy storage solution that optimizes existing generation assets and enables broad adoption of renewable energy technologies such as wind and solar, as well as reduced reliance on fossil fuels, and optimization of existing grid-tied generation assets.

What is Aquion Energy?

Aquion Energy is a company led by CEO and President, Mr. Pearson, who joined the company in March 2011 with over 20 years of experience in leading technology-based companies and organizations.

When did Aquion Energy become a chemistry?

Aquion Energy was spun out from CMU in late 2009 after the first-generation version of the AHI chemistry was developed in the labs at CMU in 2008 by Dr. Whitacre, who graduated from Oberlin College in 1994 with a BA in Physics.

When did Aquion Energy start production?

Under the leadership of CEO Scott Pearson, Aquion began low volume production in the summer of 2011 and broke ground on a full-scale manufacturing facility in nearby Westmoreland, PA in 2012.
