

Light Systems Namibia Designs, Installs, Monitors and Maintains renewable energy solutions to meet the needs of our clients. Solutions include Solar off-grid systems, Solar Grid-Tied Systems, Solar Water Heaters (Solar Geysers), Solar Street Lights and Solar Powered borehole systems.

Sustainable Power Solutions (SPS), in collaboration with Namibian partners, initiates a groundbreaking N\$200 million investment for a 10MW solar plant on Maxwell Farm. Pioneering the Modified Single Buyer (MSB) framework, this project delivers clean energy directly to customers via NamPower's grid, driving Namibia towards sustainable mining and ...

HOPSOL Africa is a technology leader for on- and off-grid solar power plants, fuel save controllers as well as solar diesel hybrid systems at utility scale (e.g. mining solutions). We are specialized in building and operating solar power plants in deserts and desert-like regions.

Sustainable Power Solutions (SPS), in collaboration with Namibian partners, initiates a groundbreaking N\$200 million investment for a 10MW solar plant on Maxwell Farm. Pioneering the Modified Single Buyer ...

Amidst growing concerns over power supply disruptions in South Africa, solar power stands out as a reliable solution for bolstering Namibia's energy availability. The quick deployment capabilities of solar technology, combined with capacity-firming systems, offer a promising path to minimizing import dependence.

Renewables can reduce the country's reliance on expensive electricity imports, improve energy security, and lower costs for consumers, thereby fostering a more resilient and sustainable power sector. Through off-grid solutions, renewables can also help Namibia achieve universal electricity access, particularly in remote areas.

Light Systems Namibia Designs, Installs, Monitors and Maintains renewable energy solutions to meet the needs of our clients. Solutions include Solar off-grid systems, Solar Grid-Tied Systems, Solar Water Heaters (Solar Geysers), ...

Amidst growing concerns over power supply disruptions in South Africa, solar power stands out as a reliable solution for bolstering Namibia's energy availability. The quick deployment capabilities of solar technology, ...

Alensy Energy Solutions is an energy management company located in Namibia. Alensy specializes in renewable energy solutions such as solar energy to address the high costs associated with utilities throughout Southern Africa. We are experts in ...

Deploying off-grid solar solutions boosts energy access levels while increasing the amount of renewables in

Grid solution Namibia

the total power mix. To make this happen, Namibia needs to integrate decentralised solutions, including off-grid solar, as part of its integrated electrification, energy transition plans and Nationally Determined Contributions (NDCs).

We offer expert domestic solar installations in Namibia, including grid-tied and off-grid solutions for residential homes in Windhoek, Swakopmund, Keetmanshoop, and anywhere else in Namibia.

The Energydock Standard Range--compact, pre-built energy solutions designed for efficiency. Equipped with cutting-edge Victron Energy inverters, solar chargers (MPPTs), and STORAGEDOCK "prime life" lithium iron phosphate batteries, these units ensure unmatched reliability and performance.
