Why choose generation renewable - Guam?

I am extremely pleased with my solar system from Generation Renewable - Guam. I was paying more than \$400.00 for power to GPA before getting a solar system from Generation Renewable - Guam... I was never really able to save money on power until I got a solar energy system from Generation Renewable - Guam...

Does Guam have plans for a solar farm?

Guam has announced plans for several large solar farms. The island has adopted a renewables policy that requires the reduction of fossil fuel consumption by 2020 to 20% less than the rate in 2010. Another requirement is for 5% of electricity in 2015 to be from renewables, increasing to 25% by 2035. A net metering program began in 2009.

What kind of inverter does gosolar use?

GoSolar uses high efficiency low cost \$/watt micro-inverters by NEP(TM). Founded in 2010 in Silicon Valley California, NEP(TM) engineers and produces competitively priced high-quality micro inverters. In fact, the NEP(TM) micro inverter is the only certified and commercially available micro inverter in Japan.

Solar energy offers a sustainable, renewable, and abundant power source for the island of Guam. Solar power is mainstream, and with a Federal Tax Credit of 30%, the time is now to invest in a solar system that will lower your power ...

A solar electric system presents an opportunity for residents of Guam to reduce their monthly expenses while making a long-term, low-risk investment. Increased Property Value: Installing solar panels is seen as an enhancement to your property, much like a kitchen renovation or a finished basement. Consequently, investing in a solar energy ...

Solar energy offers a sustainable, renewable, and abundant power source for the island of Guam. Solar power is mainstream, and with a Federal Tax Credit of 30%, the time is now to invest in a solar system that will lower your power bills, increase the value of your home, and reduce greenhouse gas emissions.

We aim to build a sustainable future for Guam, the Commonwealth of the Northern Mariana Islands and all of Micronesia Renewable Energy, Inc. In this ever-changing world, we only offer tier-one solar energy and energy storage system products, striving to meet the increasing need for global sustainability.

GPA recently projected that a subsidiary for state-run Korea Electric Power Corp., or KEPCO, South Korea's largest entity in the energy space, could start selling solar energy to GPA in early 2022.
