

How many solar panels are there in Guernsey?

A solar panel project at a Guernsey charity is now complete and will power about 40 homes, Guernsey Electricity said. There are 310 photovoltaic panels on the roof of the newly reopened Guernsey Rural Occupational Workshop (Grow) site. The charity worked with Guernsey Electricity and The Little Green Energy Company on the scheme.

Will Guernsey Electricity install a community-scale solar array?

Guernsey Electricity are delighted to have worked with The Little Green Energy Company to install another vast community-scale solar array, this time on the roof of the newly reopened GROW Ltd headquarters.

What is Guernsey's Electricity strategy?

In September 2023 The States of Guernsey agreed the Electricity Strategy. This detailed document covers the period up to 2050 and sets out a high-level strategic plan of how Guernsey could meet the anticipated increase in demand for electricity.

What are Guernsey's on-Island initiatives?

Alan Bates, CEO at Guernsey Electricity, said: "These on-island initiatives are designed to increase the amount of electricity generated from local renewable sources. The electricity feeds directly into the island's network so that all our customers can benefit from locally generated, clean solar energy."

As well as being robust and flexible in installation, a range of fixing brackets allows for the panels to be installed on all types of roof tiles including concrete and slate. Our supplier manufactures sleek, low-profile roof-integrated solar ...

Bluefield Solar Income Fund (LSE: BSIF) is a large British investment trust. Established in 2013, it is dedicated to investing in low-carbon assets in the UK. [1] The chairman is John Rennocks. [2] It is listed on the London Stock Exchange and it is a constituent of the FTSE 250 Index. [3] The company was the subject of an initial public offering on the London Stock Exchange when it ...

Secretary Jean Dean said now is a good time in the sun's cycle to see solar activity. "The sun is just starting to increase its activity - it goes through 11- and 22-year cycles of going from low to high activity, and it's just coming out of an 11-year cycle, so it's a good time to be using the telescopes," said Mrs Dean.
