The United Arab Emirates and the Co-operative Republic of Guyana have both agreed to extend cooperation in various key fields of development, particularly in food security, energy, technology, capacity building, as well as cultural and social exchanges.

In an interview with BBC World News on Thursday, December 13, Oliver Cornock, OBG's Global Editor-in-Chief, analysed and shared his insights on the agreement that was reached at the 2023 United Nations Climate Change Conference (or COP28) which was recently held in Dubai, UAE.

On a recent visit to Guyana, former UK prime minister Tony Blair expressed his hope that world leaders at COP28 will advance a framework that gives climate change players like Guyana the money they need.

Dubai, UAE--(December 1, 2023) His Excellency Dr Irfaan Ali said that there is a need for the world to collectively reset global relationships and imbue them with enhanced trust in friendship to devise solutions to issues such as climate change, conflicts and energy and food security.

In preparation for COP28, President Ali expressed confidence in Guyana's ability to capture the attention of global stakeholders. He highlighted Guyana's active role in discussions at the United Nations, where the nation has consistently been at the centre of leadership in environmental, energy, and food-related dialogues.

He explained that since arriving in Dubai, Guyana's delegation has engaged in discussions with many agencies, including the Abu Dhabi Ports. These engagements, according to President Ali, is an indication of Guyana's success at the Expo.
