This database contains a record of every company that has ever been mentioned across Thunder Said Energy's energy transition research, as a useful reference for TSE's clients. The database summarizes over 3,000 mentions of 1,400 energy transition companies, their size, focus and a summary of our key conclusions, plus links to further research.

This week our guest is Rob West, founder and CEO of Thunder Said Energy. Founded in 2019, the firm aims to help decision-makers find economic opportunities in the energy transition . Rob lives nine time zones away in Estonia and is an uber-productive energy expert, covering a wide range of topics in his consultancy.

???????????? (????????????????????Heard Island and McDonald Islands ??:HIMI) ????????????????? 1947???????????????? ...

the energy transition, with cleaner, more efficient, more economical energy. Our top technologies are ranked below, after screening their economic potential and technical readiness; based on patents, technical papers and economic

We publish research reports, data, economic models and patent screens into opportunities that can meet the energy needs of the world, while removing all of the net CO<sub>2</sub>. Key focus areas include wind, solar, batteries, electric vehicles, efficiency technologies, coal-to-gas switching, LNG, &quot;shale&quot;, materials value chains, carbon capture and ...

We screen new energy technologies with world-changing potential, including: The Energy Transition. Our work points to an economic decarbonization of the entire energy industry by 2050, with a CO<sub>2</sub> price that averages \$40/ton.
