

The MOU aims to explore and develop economic, sustainable geothermal power projects harnessing volcanic geothermal energy resources in partnership with the Solomon Islands Ministry of Mines, Energy, and Rural ...

Stellae Energy, a UK-based Green Energy Solutions and Assets company, has made significant progress following the signing of a detailed Memorandum of Understanding with the Solomon Islands in 2023. The MOU aims to explore and develop economic, sustainable geothermal power projects harnessing volcanic geothermal energy resources in partnership ...

Helio Solar installed our solar system and anytime we have the slightest issue, they were immediately responsive. To be clear, the only issues were minor and were fixed asap. They actually spent a few hours and two trips fixing our air conditioning even though it had nothing to do with the solar power!

The architecture of Honiara, the capital city of the Solomon Islands, showcases a blend of traditional and modern design. From leaf houses that reflect the island's indigenous heritage to colonial buildings influenced by European colonization, the city's architecture tells a story of adaptation and evolution. In recent years, Honiara has embraced sustainable design, with ...

Com o principal objetivo de transformar energia poluente em renovável, a Helio Energias é referência no mercado, oferecendo soluções com inovação e qualidade. Uma das pioneiras no mercado de geração e distribuição de energia renovável no país, contribui para redução de poluentes na atmosfera além de proporcionar economia e ...

Innovative solutions to boost renewables can strengthen energy security and improve quality of life in the country, according to new report. Honiara, Solomon Islands, 6 February 2024 - The Renewables Readiness Assessment (RRA): Solomon Islands undertaken by the International Renewable Energy Agency (IRENA) in collaboration with the Ministry of ...

The majority of solar energy systems installed in Solomon Islands last less than 2 years due to bad system design and poor user training. Superfly's systems are designed to last a minimum of 5 years (for basic systems) and 10 years for premium systems. Better yet, our prices are lower than our competitors because we are locally owned and we ...

This partnership represents a major step towards sustainable energy solutions for the Solomon Islands, capitalizing on the country's abundant island arc volcanic geothermal resources. Volcanic geothermal systems can potentially produce up to ~100 MW of energy from individual volcanic structures with both shallow and deep resources.

Helio Solar is a solar plus storage, and energy efficiency company operating in the residential and commercial
