

What is the largest digital substation in East Java?

Built on an area of 1.5 hectares, the digital substation is the first and largest of its kind in East Java, according to Hitachi Energy, and connects the 200-hectare Sidoarjo Industrial Estate to PLN's grid, ensuring the many large manufacturing companies have access to stable power.

How will a substation affect economic growth in East Java?

The substation will facilitate decarbonisation by allowing for the integration of renewable energy into the electricity network and will positively influence economic growth in the East Java Province by ensuring a reliable source of electricity, according to Hitachi. Have you read?

What is digital substation?

Our new Digital Substation solution combines interoperability, cybersecurity and connectivity, leveraging IoT to make your life easier and collect real-time information from the field to the enterprise level for asset management. How does it work for me?

How will Hitachi energy's new Kis substation work?

According to Hitachi Energy, the new substation at KIS is based on the latest communication protocols and will use a process bus communication network to enable the continuous bidirectional exchange of digital data between primary equipment, protection equipment, the SCADA system, and the regional control centre.

How will digitalisation affect PLN's Sidoarjo substation?

The digitalisation of PLN's Sidoarjo substation aims to lower O&M costs and will limit electrical risk with the use of fiber optic cable rather than copper for operational data exchange.

Hitachi Energy will supply a prefabricated substation to harness geothermal power on Sumatra island. Hitachi Energy's grid solution will connect the new geothermal power plant near Rantau ...

Hitachi Energy installs first digital substation in East Java, Indonesia, supporting economic growth & decarbonization, achieving stable power supply and higher efficiency with advanced tech.

Projects like Eskom's R830-million Hex Battery Energy Storage System (BESS) in Worcester in the Western Cape will help to end load-shedding, says Public Enterprises Minister Pravin Gordhan. Speaking at the launch of the new system at the Hex substation in the Breede Valley Municipality on Thursday, he said this type of project, a first in Africa, created ...
