

# High bridge solar North Macedonia

How will a new solar plant help Macedonia?

Andi Aranitasi, EBRD Head of North Macedonia, said: "The new solar plant will help the country, which faces severe air pollution from coal, to reduce its reliance on ageing coal-fired infrastructure. It will also generate cheap electricity in times of very high market prices.

Where in Macedonia is a solar park being built?

One of the two facilities has a capacity of 85 MW and is being planned by Renewable Power International in the municipality of Karbinci, in the eastern part of North Macedonia. The second solar park is planned to have a capacity of 70 MW and to be located in Pechevo, which is also in eastern North Macedonia. Its developer is Hek Solar MK.

Who built the first solar plant in North Macedonia?

The 10MW solar plant, built on the site of the spent Oslomej lignite coal mine, was constructed by the public company JSC Elektrani na Severna Makedonija (ESM). This is the company's first solar plant in North Macedonia, developed with a view to diversifying energy sources and supporting decarbonisation.

How much does a solar project cost in North Macedonia?

Its developer is Hek Solar MK. The government said the first project is expected to require an investment of EUR63 million and the second around EUR53 million, without disclosing further details. North Macedonia is currently supporting large scale solar through a series of tenders. The most recent one was launched by the Ministry of Economy in July.

How much solar power does North Macedonia have?

Solar power Built on a former lignite open pit mining site, North Macedonia's Oslomej solar park will have an installed capacity of 120 MW when fully completed. &#169; Ciril Jazbec

What are the decarbonisation plans in North Macedonia?

Decarbonisation plans in North Macedonia are taking a big leap forward. The European Union (EU) is supporting ESM, the state-owned electricity company, to implement a 30 MW photovoltaic (PV) project consisting of 10 MW on a portion of the exhausted coal mine of thermal power plant Oslomej, and 20 MW adjacent to the thermal power plant Bitola.

Specifically for North Macedonia, country factsheet has been elaborated, including the information on solar resource and PV power potential country statistics, seasonal electricity generation variations, LCOE estimates and cross-correlation with the relevant socio-economic indicators.

Macedonian solar panel installers - showing companies in North Macedonia that undertake solar panel installation, including rooftop and standalone solar systems. 13 installers based in North Macedonia are listed

below. Solar System Installers. Other Europe. North Macedonia.

The government revealed HEC Solar would install a 70 MW solar power plant worth EUR 53 million in Peh?evo. Public records showed it is headed by Boyan Tabutov. HEC Solar is headquartered in Sofia, and an ...

The first large-scale solar plant in North Macedonia has been connected to the power grid and is already producing clean electricity. The plant has been financed with the support of the Western Balkans Investment ...

The Global Solar Atlas provides a summary of solar power potential and solar resources globally. It is provided by the World Bank Group as a free service to governments, developers and the general public, and allows users to quickly ...

Given its high solar energy potential, Macedonia welcomes all investments in the renewable energy sector. The government therefore invites companies to plan, build and operate large and small photovoltaic plants. ... North Macedonia is also the leading country in the Balkans when it comes to setting up businesses, opening up new opportunities ...

The government revealed HEC Solar would install a 70 MW solar power plant worth EUR 53 million in Peh?evo. Public records showed it is headed by Boyan Tabutov. HEC Solar is headquartered in Sofia, and an affiliated firm called Hydroenergy Co. or HEC is based in Blagoevgrad, near the border with North Macedonia.
