Who is Hitachi energy?

Hitachi Energy is a global technology leader that is advancing a sustainable energy future for all. We serve customers in the utility, industry and infrastructure sectors with innovative solutions and services across the value chain.

What is Hitachi energy doing in 2024?

Zurich, April 4, 2024 - Hitachi Energy has won an order from SP Energy Networks to design and deliver a first-of-its-kind power quality solution to stabilize the grid and boost the flow of renewable energy from Scotland to England.

What does Hitachi do?

Hitachi develops and supplies an extensive range of highly efficient and reliable power generation, transmission and distribution systems throughout the world. We also provide smart city energy solutions.

Does Hitachi provide smart city energy solutions?

We also provide smart city energy solutions. In the rail industry, Hitachi is a total system supplier, offering rolling stock, traction equipment, signalling, traffic management systems, and maintenance depots. Our ZeroCarbon suite of solutions enables fleet operators to transition to electric vehicles and a net zero future.

Who is Hitachi Information Control Systems Europe?

Hitachi Information Control Systems Europe is a UK-based provider of software products for railway signalling and operations, including simulators and automatic route setting systems. Battery trains by Hitachi reduce carbon emissions and noise, improve air quality, lower maintenance costs and enable flexibility on electrification.

What is Hitachi smart power grids?

Sustainable solutions, like Hitachi Smart Power Grids, that lower carbon emissions and promote smart city strategies and e-mobility networks. Hitachi supports renewable energy solutions with battery energy storage solutions that help enhance performance of electrical networks.

In manufacturing sites where digitalization and electrification are advancing, our industry solutions that embody our leading-edge technology are implemented ...

Contributing to achieving a low-carbon society with highly-reliable manufacturing technologies. Demand for secondary batteries has been increasing, partly reflecting the need for the effective utilization of renewable energy and spread of hybrid vehicles (HVs) and electric vehicles (EVs).

# Hitachi power solutions Guernsey

Hitachi Power Solutions Co.,Ltd. With our proven technology and high reliability, we will satisfy various customer needs such as the development and manufacture of high-quality precision casting and sand casting products in a broader range of fields, including automotive, steel, power generation, construction, shipbuilding, and communications.
