

How do you open a locker

How do you open a locker?

To open your locker, start by spinning the dial clockwise, or to the right, at least 3 full turns to clear the dial from any other numbers. Then, turn the dial to the right and stop at the first number in your combination. After you have stopped at your first number, turn the dial to the left past "0" and stop on your second number.

How do you open a school locker?

See Step 1 to begin learning how to open 99% of all standard school lockers. (Note: some locks may open differently) Spin the dial at least three times to the right (clockwise), all the way around. This clears the lock of any previous numbers. If at any point in putting in your combination you mess up, do this again to start over.

How do I open a lock?

Pull up on the U-shaped lock to open it. Once you've successfully input your combination the lock should easily come off. To review: Spin the dial 3 times clockwise, landing on your first number. Spin the dial counterclockwise 1 full rotation before landing on your second number. Spin the dial clockwise to your final number. Open the lock.

How do I reopen a locker?

Find an available locker: Use the operation knob to open the locker door and put your belongings away. Scramble: After locking your restable combination lock scramble the (4) dials to secure your belonging and keep the lock closed. Reopening the lock: Use the same unique (4) dial combination to reopen the lock and retrieve your belongings.

How do I access the locker door?

Access Granted: Gently pull the locker door towards you. Perfect for those who prefer customizable security: The lock has a four (4) digit combination setting. When the lock is locked (closed), a red indicator appears in a window above the operation knob. When the lock is unlocked (opened), a green indicator appears in the window.

Why can't I open a locker door?

If the lock is built into the locker, you'll now be able to open the door. If the lock doesn't open, try the following: Rotate the dial a couple more numbers to the right (clockwise). The gates in these cheap locks are not always aligned correctly. Clear the lock and try entering the numbers again.
