

# How much does a 275W Trina solar panel cost

How much do Trina Solar panels cost?

The cost of Trina Solar panels varies based on local installation costs, shipping, and other market factors. As of April 2024, the average cost per watt for solar panels is \$3.00. As a highly reputable brand, you can expect Trina Solar panels to be around that average or higher. Guaranteed customer service may increase costs, but it's worth it.

What is Trina Solar tsm-275pd05?

Trina Solar TSM-275PD05 Multicrystalline 275 watt solar panel with 16.8% module efficiency. Great aesthetics and incredible versatility. Trina TSM-275PD05 multicrystalline solar panel is perfect for small rooftop systems. HONEY panels can generate high amounts of energy even when space is limited.

What types of solar panels does Trina Solar offer?

Trina Solar offers two types of monocrystalline residential solar panels: the DE06X.05 (II) and the DD06M.05 modules. Both of the PV modules use half-cut cells and come with either a white or black backsheet, enhancing their visual appeal. Half-cut solar panels are more efficient than their traditional counterparts.

Are Trina Solar panels good quality?

All Trina Solar's solar panels are designed and manufactured to the very best quality standards and then thoroughly tested. They stand by their quality promise too with a 25 or 30-year linear power warranty, as well as guarantees that panel output will still be achieving at least 90% performance by year 10.

Which Trina Solar modules are best for rooftop PV applications?

Quadmaxis available with black frame. These modules from Trina Solar offer the best performance in rooftop PV applications. The advanced PERC and 5 busbar technology helped Honey M Plus products to set the output world record of 335.2Wp for a 60-cell module in 2014.

Does Trina have a warranty?

Trina offers a 25-year product and performance warranty, which is not typical in the solar industry, making it an excellent purchase for years to come. 80% performance after 25 years is to be expected, many solar panels warranty their panels to perform at a slightly higher rate, around 82%, but 80% is still rated as high-performing.
