

How to use photovoltaic panels on community balconies

How do balcony solar panels work?

The most fundamental component of a balcony solar system is the solar panels, which capture sunlight and convert it into direct current (DC) electricity. For balcony setups, it's practical to choose smaller, more manageable panels that can either be mounted on balcony railings or placed on stands.

Can solar panels be used on a balcony?

Balcony solar panels can be adapted to different balcony designs, but their suitability depends on factors such as available space, sun exposure, and local regulations. Consultation with our professionals can help determine if they are a good fit for your specific balcony. How do I know if my balcony receives enough sunlight for solar panels?

Are balcony solar panels a good investment?

These panels are designed to capture sunlight efficiently, even in limited spaces. This means you can generate a significant amount of electricity from your balcony, helping to power your home while reducing your reliance on conventional energy sources. Another key benefit is how balcony solar panels optimise your available space.

Are plug-in balcony solar panels a good option?

Plug-in balcony solar panels can be a great option for people living in flats or rented accommodation. They aren't as expensive as regular roof-mounted systems, and they can still save you a little on your electricity bills. If you'd rather get solar panels professionally installed, we can help.

How much do balcony solar panels cost?

Installing balcony solar panels that are connected to the home's electrical system costs around £1,405 for two 350 W panels- most balconies won't have room for more than this. Are there any grants for balcony solar panels?

What are the disadvantages of balcony solar panels?

Another disadvantage of balcony solar panels is that, depending on the set-up, they take up most of the balcony- one panel is around two square metres. You can free up space on the balcony if you opt to hang the solar panels from the balcony railings or wall.
