What is HPS Picea 2?

HPS Home Power Solutions AG has recognized this need and introduced an impressive upgrade to its Picea system. The Picea 2, a hydrogen-based electricity storage solution designed for residential use, promises to be a game-changer in the world of home energy storage. The Picea 2 is not just an incremental improvement; it's a leap forward.

Will HPS expand the production capacity of the Picea systems?

Home Power Solutions wants to expand the manufacturing capacities of the Picea systems. Sales of the Picea all-season power storage units have increased rapidly in recent months. Now HPS wants to expand production capacities, also to shorten delivery times.

How many Picea systems does HPS have?

With the 500 systems installed so far, the company has reached an important milestone in its growth strategy. Demand is increasing. For example, HPS sold 300 Picea systems between its market launch in 2019 and September 2022. The remaining just over 200 systems went to customers in the past six months.

Is Picea CO2 free?

CO₂-free, without exhaust fumes, noise or harming animals. With picea, we at HPS have developed a globally unique solution that stores this solar power in the form of hydrogen and can release it on demand 365 days a year. We are HPS and we want to make history.

Can a Picea cluster help a sanitary and heating company?

A sanitary and heating company in Meckenheim, for example, is supplied with completely CO₂-neutral electricity from 5 picea systems. With a picea cluster, we will be able to form a "virtual power plant" in future - this will provide a solution for a missing component of the energy transition.

Does HPS offer a warranty on a Picea 2?

The design is modular and easy to maintain. HPS takes care of the installation and offers long-term maintenance contracts. The picea 2 warranty explicitly includes all included parts such as battery, electrolyser and fuel cell. The 5-year warranty is optionally extendable to 10 years. We always keep the software of your picea up to date.

The new generation of picea also provides a significantly increased maximum connection capacity for photovoltaic systems. As a result, picea 2 aligns with a discernible market trend toward larger photovoltaic ...
