

Huawei Photovoltaic Inverter Model TL33

Instruction Manual

What is a sun2000-33ktl/40ktl inverter?

2 Overview Overview 2.1 Introduction Function The SUN2000-33KTL/40KTL is a three-phase grid-tied PV string inverter that converts the DC power generated by PV strings into AC power and feeds the power into the power grid. Models Figure 2-1 shows a model number of the SUN2000-33KTL/40KTL, using SUN2000-33KTL as an example.

What power grid mode does sun2000-33ktl-e001 support?

The SUN2000-33KTL and SUN2000-33KTL-E001 support the power grid modes TN-S, TN-C, TN-C-S, and TT, as shown in Figure 2-3. The SUN2000-30KTL-A and SUN2000-40KTL only support the power grid mode IT, as shown in Figure 2-4. The SUN2000-30KTL-A and SUN2000-40KTL are mainly used for medium-voltage power grids.

How do I connect a sun2000-33ktl/sun2000-33ktl-e001 AC output wire?

connector at the inverter bottom. Connect the SUN2000-33KTL/SUN2000-33KTL-E001 AC output wires to pins L1, L2, L3, and N of the AC terminal block and tighten the screws to a torque of 4 N·m using a 10 mm socket wrench.

Is Huawei liable for inverter failure?

Huawei shall not be liable for any consequence caused by violation of the storage, transportation, installation, and operation regulations specified in this document. Do not tamper with any warning signs on the inverter enclosure because these signs contain important information about safe operation.

Why is my Huawei inverter NOT working?

Cause ID = 1 An unrecoverable fault occurs on a circuit inside the inverter. Turn off the AC output switch and DC input switch. Then turn on the AC output switch and DC input switch after 5 minutes. If the fault persists, contact Huawei technical support. The neutral wire or PGND cable does not connect to the inverter.

Can a sun2000-33ktl be connected without a neutral wire?

Note b: The SUN2000-33KTL allows the neutral wire not to be connected in some countries or areas. When it is used in a system without a neutral wire, set Output mode to Three-phase three-wire on the SUN2000 app, SmartLogger, or NMS. The grid codes are subject to change.
