

Is peak wind buying hybrid GreenTech?

Danish firm Peak Wind is set to acquire a minority stake in a local battery start-up Hybrid Greentech through a strategic equity investment. The transaction builds on an existing partnership that was forged last year. Established in 2018, Hybrid Greentech specialises in energy storage management and virtual power plant (VPP) technology.

What is the partnership between greentech and peak wind?

" Hybrid Greentech and PEAK Wind form partnership to offer intelligent hybrid power plant solutions. Success! Message received. VAT.: DK43102311

What is a hybrid energy storage system?

The energy storage industry has just begun exploring grid-scale hybrid solutions, called hybrid energy storage systems (HESS), that combine two or more energy storage technologies with complementary characteristics to provide an optimal solution not achievable by any one technology.

Hybrid Greentech promotes energy storage to reach 100% renewables in the energy and transport sector by providing state-of-the-art technical knowledge of energy storage technologies in the following business areas: Hybrid Power Plants, Hybrid Marine, Micro Grids, Electric Mobility, and Hybrid Energy Buildings.

Today, PEAK Wind, a leading provider of wind energy O& M and asset management advisory consultancy and Hybrid Greentech, a pioneer in intelligent battery energy storage systems, announce the formation of a partnership that aims at solving one of the major challenges in the global energy transition, namely the increased cost of managing ...
