

Inaccess power factors Kuwait

Is power factors acquiring inaccess?

SAN FRANCISCO, California, June 15th, 2022 - Power Factors, a leader in renewable asset management software, today announced it will acquire Inaccess, a leading provider of integrated mission critical software and hardware solutions for renewable power plants, battery energy storage systems, hybrid plants, and virtual power plants (VPPs).

How will Power factors & inaccess work together?

The combination of two powerful platforms, with Power Factors' leading asset performance management solutions and Inaccess' best-in-class SCADA, power plant and battery control, and energy marketing offerings, will unlock these new services, along with new potential revenue streams.

What were the financial terms of the power factors acquisition?

The financial terms of the acquisition were not disclosed. Power Factors plans to combine its asset performance management solutions with Inaccess' SCADA, power plant and battery control, and market trading offerings to support the transition of the global renewable energy market.

Power Factors launches next-generation AI-powered asset performance management application on Unity platform. Unity APM is now available, and represents the next generation of renewable energy management, integrating the best capabilities from Power Factors' proven APM products.

The acquisition of Inaccess also adds SCADA, power plant and battery control, and energy marketing offerings to Power Factors' platform. Once finalized, the deal will expand Power Factors' customer asset management portfolio to ...
