Which natural gas-fired power plants will be built in Israel?

The two natural gas-fired power plants, Alon Tavor and Ramat Gabriel, are to be built in northern Israel. Alon Tavor will supply a creamery with electricity and process steam, while Ramat Gabriel will supply a fiber factory. The Israeli energy provider, RD Energy, is the customer for both power plants.

What is the Israeli wave energy project?

The Israeli wave energy project marks the first grid-connected wave energy system in Israel's history. Eco Wave Power will soon commence the installation of its third, fourth and fifth wave energy projects, in the Port of Los Angeles, Taiwan, and Portugal. The Company also holds a total projects pipeline of 404.7MW.

Does Siemens have a strong presence in Israel?

"The Israeli power plant market offers enormous potential, and Siemens has a strong presence in the country," says Shmuel Fledel, CEO of Siemens Israel and country division lead of the Power and Gas Division. "We are now supplying our first entirely combined cycle plants to an Israeli independent power producer.
