Instagrid GO weighs only 46 lb and can be carried in one hand. With dimensions of 16.5 x 8.2 x 16.7 in, it fits into tight spaces and is easy to take with you on mission. Its IP44 rating means that the Instagrid GO is unaffected by dust or moisture.

At Instagrid, we embrace a work style that's refreshingly free from the ordinary. We're curious minds building category-defining products, so we maintain a healthy disrespect for the impossible. Collaboration is the cornerstone of our success; our cross-functional teams work seamlessly together to bring powerful innovations to life.

Instagrid ONE max - design process unwrapped. The Instagrid ONE max is designed and developed to be robust, powerful, and easy to use - so that you don't need to worry about the power source and can focus on what you do best. In November 2021 the Instagrid ONE max was awarded with the German Design Award 2022 in Gold.

Better than mobile generators. With a rated power output of 3,600 W and a peak output of 18,000 W, Instagrid GO is significantly lighter and quieter than traditional combustion generators, all the while delivering superior performance.

Introducing Instagrid GO, your portable, fume-free power unit designed to amp up your most ambitious projects, wherever they take you. Instagrid GO ensures you're always powered up, from construction sites to remote film sets, no matter where work calls. Quiet, clean, and ready for anything - this is grid-like power on your terms.

Instagrid GmbH 2018, Sebastian Berning, Andreas Sedlmayr, Instagrid GmbH. Instagrid Sebastian Berning Andreas Sedlmayr

We're mission-driven, passionate and deeply believe in what we do. We're here to challenge the status quo and make a positive impact in the world - from cutting down local air pollution and fighting climate change to helping create a better and safer working environment for people.

Instagrid's flagship Instagrid ONE is lightweight and mobile enough to be used in the most remote locations and powerful enough to match the performance of the grid, making it possible to use electricity from ...
