

Who is intilion & what does it do?

INTILION was spun off of the HOPPECKE Group in 2019 to pool the company's lithium-ion activities under a single roof and advance the energy transformation with stationary storage systems. Through its parent company, INTILION has access to more than 95 years of experience in premium-quality electrochemical energy storage for industrial applications.

Who is intilion insurance?

Munich Re Group is a leading global provider of reinsurance, primary insurance and insurance-related risk solutions committed to driving sustainable growth and innovation in the renewable energy sector. The insurance for Intilion is underwritten by a Munich Re Group primary insurer, an S&P AA-rated international insurance company.

What is the storage capacity of intilion ESS products?

The storage capacities of the company's intelligent lithium-ion-based ESS products range from 70 kWh to 100 MWh. INTILION's portfolio of solutions and services is leading the way to a decarbonised, flexible and digital energy sector, enabling the transition towards climate-neutral, renewable and clean energy use.

What is INTILION's mission?

INTILION's mission is to help shape the future together as a team of diverse people. We work with passion and integrity to advance the energy transition and make a sustainable contribution to our society and the environment. We appreciate diversity: every person at our company and in society is valuable.

What services does intilion offer?

INTILION offers large-scale storage projects including comprehensive project management services and a full range of grid hookup options (inverter, transformer, switching stations, assembly, and more). The HOPPECKE Group's lithium-ion activities are pooled in INTILION GmbH, a new company with three business fields: truck, grid, and rail.

What is intilion & scalestack?

In June 2022, INTILION Aktiengesellschaft was incorporated through a change of legal form. The INTILION |scalestack is the second INTILION commercial storage system to be optimized for indoor use thanks to impressive energy content scalability (roughly 150 kWh to 1,200 kWh) and performance (25 kVA to 400 kVA in 25 kVA steps).

The Management Board and Supervisory Board of INTILION AG consider it their duty to ensure sustainable value creation through responsible corporate governance with a long-term focus. The INTILION Code of Conduct is an expression of the principles by which we conduct our business and describes INTILION AG's corporate values.

INTILION AG is a leading provider of innovative, highly scalable and integrable energy storage solutions (ESS) with a comprehensive range of services, primarily for use in system-relevant and critical infrastructures such as commercial, industrial and grid applications.

Intilion revealed its plans to list shares on the Frankfurt Stock Exchange today (27 June). The initial public offering (IPO) will also include private placements outside of Germany of new shares from a capital increase, and will see current majority shareholder the Hoppecke battery company sell some of its existing ones.
