Who is Caterpillar Energy Solutions?

As part of the Caterpillar Inc., Caterpillar Energy Solutions today has a leading position in the field of highly efficient, ecologically advanced distributed energy solutions. Thus, the company serves its customers around the globe as a reliable partner for proven and sustained added value in the implementation of power plant projects.

What is the Caterpillar Energy Solutions service portal?

The Caterpillar Energy Solutions service portal is available to our customers around the clock to deliver customized support and ensure rapid spare parts supply. We thus guarantee tailored solutions, reduced downtimes and, as a result, superior profitability of the plant.

Does caterpillar support sustainability?

Caterpillar supports sustainability with a broad portfolio of advanced power offerings: o Caterpillar's hybrid energy solutions technology suite includes photovoltaic (PV) solar modules, bi-directional power (BDP) inverters, energy storage system (ESS) modules, advanced microgrid controllers and full digital monitoring.

Is Caterpillar Energy Solutions ISO 9001 certified?

All Caterpillar Energy Solutions locations are certified according to ISO 9001:2015. For us, the implementation of relevant directives is not merely something that is "nice to have", but an essential requirement of our customers.

What types of gas engines do Caterpillar offer?

Cat gas engines and cogeneration systems for use in demanding conditions. MWM gas engines for cogeneration power (CHP) plants. The product portfolio of Caterpillar Energy Solutions encompasses gas engines and gensets of the MWM and Cat brands, which can be run on natural gas, biogas and hydrogenous gases.

Why should you choose Caterpillar Energy Solutions?

Our consistent quality management guarantees products with lasting high levels of efficiency and ease of operation, in adherence with the highest environmental standards. The Caterpillar Energy Solutions service portal is available to our customers around the clock to deliver customized support and ensure rapid spare parts supply.

We are a certified professional welding shop, which meets the terms of the EN ISO 3834-2:2021 standard. We also require all Caterpillar Energy Solutions suppliers to have the necessary welding technology certifications. Download certificates. Combined Certificate ISO 9001:2015 (Quality Management) / ISO 50001:2018 (Energy Management) EN | DE
