

# Iron tower solar bracket installation diagram

What should I do if my ironridge roof obstructs installation?

Comply with all of roofing manufacturer's warranty terms, ensuring that any loose debris potentially obstructing installation procedures is removed from the installation area. Use only IronRidge parts or parts recommended by IronRidge; substituting parts may void any applicable warranty.

What is the ironridge standard rail system?

The IronRidge Standard Rail System is a flexible and straightforward roof mounting solution for a wide variety of solar photo-voltaic (PV) needs. Due to its modular design, it can easily handle a wide variety of panel sizes and quantities. 1. Installer Responsibility

How many PV panels will a Stan-Dard rail kit cover?

Used between PV panels to secure to Stan-dard Rail 1 kit will cover 2 PV panels within a row. Part number changes depending on panel required. Length of bolt depends on the thickness of the PV panel. Used on the first and last PV panel in a row 1 kit will cover the first and last PV panels in a row.

How do you install a ballast support?

Set down two (2) Main Supports, then fit two (2) Ballast Supports into slots. Ensure tabs are fully inserted into slots. Torque the four (4) 1/4"-20 hex bolts to 84 in-lbs. Do not use impact drills, as bolts may break. Use a slow drill speed to reduce hardware from seizing up. If using Roof Pads, attach to bottom of Main Supports at this time.

How do you install a high wind deflector?

Secure deflector to Ballast Trays with two (2) flange nuts. Connect overlapping sections of deflectors with two (2) 1/4" self-drilling screws, using pilot holes on overlapping (or western) deflector. Torque until snug. If using a High Wind Deflector Kit, see Page 8. It may be helpful to drill holes on underside deflector prior to installing screws.

US-Made Solar Solutions See if you qualify for tax credits with 40-45% Domestic Content. Proposal to permit, in minutes. Our UL 3741 listing means you can install without MLPE devices. Cash in on Mega Watt Savings Our UL 3741 listing ...
