

JA Solar PV Panel Arrival Copywriting

Who are JA Solar panels?

PVEL (DNV-GL) is one of the world's leading solar module testing services based in Germany and every year the company produces the annual PV Module Reliability Scorecard Report. Over the last 5 years, JA solar panels have consistently scored in the 'Top performer' category among 20+ of the world's leading solar brands tested.

What is JA Solar?

JA Solar is one of the most competitively priced of the 'big-name' solar panels on the market. Most of JA Solar's products have been approved by the Clean Energy Council (listed under the parent company Shanghai JA Solar Technology Co Ltd) for the Small-scale Renewable Energy Scheme - Australia's home solar rebate program.

Is JA Solar a good brand?

JA Solar is considered a high-efficiency budget brand, so while the panels have good performance, the cost per watt is still below what most competitors charge. Temperature Coefficient (10%): The temperature coefficient of a panel tells you how much of the panel's efficiency is lost per degree over 77 degrees (F).

Is JA Solar a global company?

Over the years, JA Solar's influence has expanded globally, and its footprint now extends to several continents, indicating its prominent role in the worldwide solar market, and the company's ability to cater to diverse customer requirements. In May 2023, the company released its next-generation DeepBlue 4.0 Pro solar panels.

How much do JA Solar panels cost?

The cost of solar panels from JA Solar is quite competitive compared with other solar panel companies. Our research has found that a 585W panel, for instance, is priced at around \$90. Sharp sells a similar model for around \$40 more. However, JA Solar's product warranties only last 12 years - half that of many other manufacturers.

What type of solar panels does JA Solar use?

JA Solar uses mostly monocrystalline solar panels and half-cut cells, which are more durable, reliable and efficient than polycrystalline (poly) solar panels. Most models also include multi busbars (MBB) to reduce the risk of hotspots and improve overall performance. These are common in many brands, though.

JA Solar is one of the largest solar panel manufacturers with third-largest solar module capacity (reportedly 42.5GW/year in 2021). JA Solar has focused on producing a mid-market solar panel for the masses that ...
