

Jakson solar Malawi

At Jakson Solar, we're redefining solar energy with our innovative bifacial solar panels. These panels represent a leap forward in efficiency and sustainability, utilizing the power of both direct sunlight and reflected light from below to ...

We specialize in manufacturing both bifacial and monofacial solar modules, complemented by our top-of-the-line solar inverters. Together, they create the perfect synergy for high-efficiency solar solutions. With a legacy spanning ...

Jakson Solar, a division of Jakson Engineers Limited, has been honored as a Top Performer in the 2024 PV Module Reliability Scorecard by PV Evolution Labs (PVEL). This prestigious recognition underscores Jakson Solar's dedication to excellence and innovation in manufacturing photovoltaic (PV) modules.

Jakson Green is the new energy transition platform backed by Jakson Group. 1+ GW Solar IPP 5+ GW Solar EPC Upcoming presence in Latin America and APAC Headquartered in India, EMEA region led from Dubai; rest of Africa led from base in South Africa

We specialize in manufacturing both bifacial and monofacial solar modules, complemented by our top-of-the-line solar inverters. Together, they create the perfect synergy for high-efficiency solar solutions. With a legacy spanning over 75+ years in the Energy and Infrastructure sector, we have a proud history of being market leaders.

The Golomoti project is Malawi's second solar IPP after JCM's Salima solar project and proudly boasts the first utility-scale grid-connected battery energy storage system in sub-Saharan Africa, having connected to the grid in December 2021.

Our high-performance solar inverters that convert direct current (DC) from your solar panels into alternating current (AC) offer uninterrupted power stability & market excellence. Our goal is to keep upgrading comprehensive solar solutions that empower individuals and communities, driving a global shift towards renewable energy and a more ...

Whether it's providing remote power for cabins, supporting remote sensing technologies, enhancing telecommunications infrastructure, or catering to residential energy needs, these Solar PV panels offer versatile solutions. Jakson takes pride in offering top-tier renewable energy solutions beyond just solar panels.

The Golomoti project is Malawi's second solar IPP after JCM's Salima solar project and proudly boasts the first utility-scale grid-connected battery energy storage system in sub-Saharan Africa, having connected to the grid in ...

Jakson solar Malawi

The 40MW Nkhotakota solar photovoltaic (PV) project is "on the cusp" of reaching financial close, Phanes Group chief executive Martin Haupts told African Energy at the Africa Energy Forum in Lisbon. The project was awarded to Phanes Group, responsAbility, and Jakson Engineers India following a tender in 2017.
