Will a private-sector-led project strengthen energy resilience in Jamaica?

Minister of Science, Energy and Technology, Hon. Daryl Vaz, has welcomed a private-sector-led project that will strengthen energy resilience in Jamaica by accelerating the adoption of distributed solar energy.

What is the Jamaica energy Resilience Alliance?

Led by the management consulting company, Cadmus Group LLC, based in the United States, the Jamaica Energy Resilience Alliance includes solar energy developers that will mobilise up to US\$50 million in investment funds to support solar project development.

Does Jamaica have a national energy policy?

Jamaica adopted a National Energy Policy 2009-2030 in late 2009, following the preparation of a 25-year National Development Plan called "Vision 2030" in 2005. In 2010, a National Renewable Energy Policy 2009-2030 was also established.

How has Jamaica diversified its energy mix?

Mr. Vaz noted that over the 10-year period from 2008 to 2018, Jamaica has significantly invested in diversifying its energy mix, moving from petroleum accounting for 95 per cent of electricity generation to 74.1 per cent, with wind increasing from 2.4 per cent to 10 per cent; and hydro from 2.6 per cent to 2.8 per cent.

What does USAID do for Jamaica's Tourism sector?

Through an alliance of Jamaican and international organisations, with funding support of US\$4 million from the United States Agency for International Development (USAID), the three-year undertaking will build resilient distributed energy in the tourism sector and demonstrate the impact of community solar energy.

What type of electricity is used in Jamaica?

In Jamaica, non-renewable generators that use petroleum products, primarily Bunker C fuel oil and automotive diesel, generated 93% of the annual output for 2014.

NISE has developed a solar dryer by using solar thermal energy that can further be collected by the solar collector, which produces hot air as the output. That hot air is then sent to the chambers where fruits and vegetables can be dried. NISE has started this project with the Horticulture Department of Leh Ladakh to preserve the fruit called ...
