FortisTCI, the energy provider in the Turks and Caicos Islands, is making significant strides in constructing the country's first utility-scale solar plus battery microgrid on its property in Kew, North Caicos. The project began last year and has reached a critical milestone, with installation of the solar PV system now underway.

We deliver the most efficient solar power and wind turbine renewable energy solutions to the Turks & Caicos Islands and remote off-grid businesses. Solar Island Energy has been helping Turks & Caicos Islands resorts and companies save time, money and energy, and increase value for many years.

The contract outlines the installation of five rooftop solar PV systems, with battery energy storage and accessories at the following critical public facilities: Blue Hills Clinic, Providenciales; Wellness Centre in Grand Turk; Bottle Creek Clinic in North Caicos; Middle Caicos Clinic and South Caicos Clinic.

This signing marks a pivotal moment in the Turks and Caicos Islands transition towards a sustainable energy future. The contract outlines the installation of five rooftop solar PV systems, with battery energy storage and accessories at the following critical public facilities: Blue Hills Clinic, Providenciales; Wellness Centre in Grand Turk
