Who is Jurchen technology?

Jurchen Technology supports customer's projects through planning, construction, commissioning, and operation phases. Our team is highly specialized and focused on providing solar solutions since 2008 with a long history of redefining solar providing innovative, optimized, cost efficient substructure and DC cabling solutions.

Why should you choose Jurchen Technology India Private Limited?

Boosting businesses by supplying high-grade Aluminum Solar Panel Mounting Structures, P Standing Seam Clamps, Module Mounting Structure PEG Systems, Inline Fuse Connectors, and more. Jurchen Technology India Private Limited is a trusted name in the industry.

Why should you choose Jurchen technology?

Our German in-house R&D center performs rigorous durability testing to guarantee a safe and long-lasting product. Additionally, our engineering team is able to provide solutions that are simplified and customized to customers' needs. Jurchen Technology supports customer's projects through planning, construction, commissioning, and operation phases.

Jurchen Technology fertigt seit 2008 innovative Systemkomponenten f&#252;r Photovoltaikanlagen mit Hauptstandort im bayerischen Helmstadt und Produktionsstandorten in Indien. Unterkonstruktion, DC-Kabel und passendes Zubeh&#246;r

Whether you're venturing into solar photovoltaic and thermodynamic plants, concentrated solar pv power, or solar energy storage, Jurchen Technology India is your trusted partner. Our range encompasses the entire solar energy spectrum, providing comprehensive solutions for power generation and beyond.

At Intersolar Europe in Munich, St&#228;ubli Renewable Energy will showcase its new partnership with Jurchen Technology, using their cable harness manufacturing expertise to ...

Patented Mounting System for Solar Power Plants Increase Your Land Yield by 225% The PEG &#174; provides a unique simplified high-density ground mount solution that produces 225% more land yield versus trackers and fixed tilt systems.

Jurchen Technology specializes in manufacturing high-quality substructure and DC cabling for solar power
