

What is Ecostar Energy's financial position like?

Ecostar Energy, as part of the Ecostar Holding, enjoys a strong financial position. In the last few years, the company has been engaged in projects as an independent power producer (IPP), Build-Own-Transfer (BOT), or Build-Own-Operate (BOO).

What does Ecostar Energy specialize in?

Ecostar Energy is a part of the Ecostar Holding and specializes in the development of power projects based on natural gas, hydropower, HFO, Diesel, biomass, and biofuels ranging from 1MW to 1000MW.

Is Kenya a sustainable country?

Kenya is positioned to leap past the heavily polluting industrial stage of growth, shifting to a more sustainable society. In 2008, the country created the Vision 2030 development programme, aiming to use 100% renewable energy by 2030. Renewable sources already supply more than 90% of Kenya's electricity.

Will Kenya's new electric line become an African example of green transport?

Kenya hopes the new modern system and the electric line becomes an African example for efficient green transport. One evening in central Nairobi, Carolyn Omondi stands warily on the side of a busy highway, waiting to start her long trek home to the Kibera informal settlement after a full day's work.

Does Kenya have geothermal power?

Geothermal operations produce more than 40% of Kenya's power. Since the 1950s, "Kenya is the pioneer of geothermal progress in Africa," says Peketsa Mangi, who is standing in the middle of a lush field in Kenya's Great Rift Valley with plumes of thick, white, noisy steam belching up from the earth behind him.

Does Kenya have a partner in the European Investment Bank?

This is the innovative Kenya that found a partner in the European Investment Bank. Nairobi is the EU bank's regional hub, with nearly 30 staff members working for its EIB Global development arm. The East Africa hub serves Kenya, Ethiopia, Sudan, South Sudan, Uganda, Rwanda, Burundi, Tanzania, Eritrea, Djibouti and Somalia.

**Key Figures & Findings:** Kenyan manufacturers are turning to clean energy solutions, driven by eco-consumerism. Bidco Africa, a leading consumer goods company, has installed solar panels, reducing reliance on traditional energy sources. This shift is in response to growing consumer demand for sustainable products.

Kenya will keep expanding geothermal energy, but it is also exporting technical knowledge about electricity and green energy to countries across Africa. The European Investment Bank is one of the biggest supporters ...

Kenya will keep expanding geothermal energy, but it is also exporting technical knowledge about electricity
