How Much Energy Will a 1,000-Watt Kit Generate? Many solar panel kits are 24-volt systems. While you can use a 1000-watt solar panel system with a 12-volt system, the downside is that you will draw more current from your batteries and may lose power when your battery cables heat up. A 1000-watt solar panel system will deliver 1000 watts to your ...
