Kit solar 2000 watts Lebanon

Our 2 kW solar systems feature DIY solar kits, which will produce at least 2kW (or 2,000 watts) of power. This translates to approximately 175 to 375 kilowatt-hours (kWh) per month depending on your system choice, location and other factors. Choose between a 2kW solar kit with microinverters and a 2.4kW off-grid kit.

At Solarcom Energy, we are committed to providing renewable energy solutions in Lebanon. Our focus is on selling solar energy products, including solar panels, solar inverters, lithium batteries, and heavy-duty solar systems. We offer solar panel installation services in Beirut and solar system maintenance throughout Lebanon.
