

Why is electricity expensive in Kosovo?

Usually, in Kosovo the imported energy is much more expensive than export. This is because Kosovo imports energy one day before needed, in the other hand energy is exported during the night when the demands are under generating level. Imports and exports have a negative impact for electrical energy price.

Does Kosovo need a new energy sector?

Given this background, the Government of Kosovo has prioritized the modernization and improvement of the country's energy sector, and has asked its development partners, including the World Bank, European Commission, KfW, USAID, as well as other donors, for support and assistance.

Should Kosovo invest in energy transition beyond coal?

We find that Kosovo can seize on the readiness of international financial institutions and development banks to invest in the country's energy transition beyond coal. Kosovo can use these funds to develop a world-class, energy-efficient, renewables-based economy.

What does Kosovo's Energy Strategy look like?

The Government of Kosovo is currently finalizing a long-awaited energy strategy where it is expected to announce the eventual decommissioning of one of the coal-fired power plants, set a renewable energy target for 35 percent of all electric energy consumption by 2031, and further integrate in regional energy markets.

What energy sources can Kosovo use?

There are three main sources of energy Kosovo can potentially use to satisfy this demand--lignite, gas and renewables. Lignite: We no longer see any realistic prospect for external financing of a new lignite power plant in Kosovo.

How can Kosovo reduce its electricity consumption by 2030?

Investment in energy efficiency: Incremental investment in public and residential buildings, including district heating, could reduce Kosovo's national electricity consumption by about 600 GWh by 2030, according to the World Bank options study.

Load-shedding has driven a record seed-funding round for South African startup Hohm Energy, which connects homeowners with installers and financiers to ease the process of installing solar panels. Hohm Energy ...
