

Kosovo pt lesso new energy

Does Kosovo need a new energy sector?

Given this background, the Government of Kosovo has prioritized the modernization and improvement of the country's energy sector, and has asked its development partners, including the World Bank, European Commission, KfW, USAID, as well as other donors, for support and assistance.

Can Kosovo leapfrog to a fully decarbonised energy system?

Kosovo has very large lignite resources, totalling 12.5 billion tonnes, which it claims are the second largest in Europe and fifth largest in the world. It has no oil or gas extraction and no gas import infrastructure, thus providing an opportunity to leapfrog to a fully decarbonised energy system.

What is Lesso solar?

LESSO Solar, a flagship division of the LESSO Group, specialises in making solar panels, inverters, and energy storage systems, and providing new-energy solutions. We have a production capacity of 7GW for solar panels in early 2023, and expect a global capacity of over 15GW by the end of 2023.

Who is Lesso?

LESSO is your trusted partner in building a cost-effective, reliable, durable, intelligent, and highly efficient PV storage and charging integrated system. Offering residential off-grid and grid-tie solutions, cutting-edge technology, advanced intelligent manufacturing, and commercial energy storage solutions.

What is Lesso Singapore?

LESSO Singapore: This branch is a key hub in the Asia-Pacific region, focusing on market expansion, technical support and regional partnerships. With five production bases totaling 450,000m², we have a 15.3GW module and 6GW solar cell capacity.

Where is Lesso located?

LESSO America: Our U.S. branch, based in Corona with four warehouses nationwide, has 15 years of experience in building materials, photovoltaic products, and power plant projects. LESSO Indonesia: Located in Semarang, this branch covers 130 acres and has a 2.4GW production capacity, making it the largest photovoltaic enterprise in Indonesia.

Discover the power of personalized solar energy solutions with LESSO. Join hands with us to illuminate a brighter and more sustainable future, one project at a time. The LESSO Centre for New Energy Projects is a global centre for creativity, expertise, and business solutions.

Offering residential off-grid and grid-tie solutions, cutting-edge technology, advanced intelligent manufacturing, and commercial energy storage solutions. We pave the way for a new era of energy and lifestyles--accessible anytime, anywhere.
