# Kulani energy Philippines

The Philippines' ongoing shift to green energy sources is leaving a trail of displaced indigenous communities and devastated land, and lost lives, watchdog Global Witness reported.

The coal-fired Quezon Power Plant in Barangay Cagsiay I in Mauban, Quezon. Electricity pylons in San Leonardo, Nueva Ecija. The electricity sector in the Philippines provides electricity through power generation, transmission, and distribution to many parts of the country. The Philippines is divided into three electrical grids, one each for Luzon, the Visayas and Mindanao. [1]

5 ??? Together, the San Miguel Bay and Lucena Wind Power Projects represent Nexif Ratch Energy's most advanced offshore wind projects in the Philippines. These developments are part of a growing portfolio of renewable energy projects in the Philippines, which includes a total pipeline of 2.5 GW, with 219 MW already in operation and under construction.
