Why is Dalad Banner building a solar power farm?

Dalad Banner is constructing a solar power farm to bring significant development to the modern energy and economy of the region. This project is expected to optimize the environment and accelerate progress in the treatment of the Kubuqi Desert. Officials noted that plants are now growing in the barren Kubuqi Desert.

Where is Dalad photovoltaic power base located?

The Dalad Photovoltaic Power Base is located in Dalad Banner, administered by Ordos city in North China's Inner Mongolia autonomous region.

Where is Huawei's solar power station located?

In the Kubuqi Desert of Inner Mongolia, the State Power Investment Corporation used Huawei's smart PV solution to build a 300 MW solar power station. The power station located in Dalad Banner, an administrative region in Inner Mongolia, boasts 196,000 solar panels that were installed in the pattern of a galloping horse.

What can solar panels do for Mongolia?

The project has also fixed more than 1,000 hectares of sand. The solar panels do far more than just generate electricity. Local residents have been able to plant herbs and shrubs under the panels and cash crops like desert false indigo and Mongolian milk vetch between the arrays.
