

Lesotho teravolt energy

Where did energy data come from in Lesotho?

production, consumption, imports and exports of energy commodities. Electricity data was obtained from Lesotho Highlands Development Authority (LHDA) and Lesotho Electricity Company (LEC), while petroleum fuels data was obtained from Petroleum Fund, Lesotho Defense Force, Matekane Group of Companies, Mission Aviati

What does the Department of energy do in Lesotho?

The Department of Energy is committed to increasing energy access and ensuring security of energy supply in the country. The Department of Energy is tasked with promotion and implementation of renewable energy projects and programs. A website of the Department of Energy (DoE) in Lesotho with an Energy Management Information System (EMIS).

How much electricity does Lesotho produce?

Lesotho produces about 72 MW from hydropower (Meula). It has about 150 MW peak power and imports more than 70 MW mainly from Mozambique (29% of peak demand) and 20% of its peak demand from South Africa. The electricity supply accounts only for +-50% in the energy mix.

What are the different types of energy transformation in Lesotho?

One of the most important types of transformation for the energy system is the refining of crude oil into oil products, such as the fuels that power automobiles, ships and planes. No data for Lesotho for 2022. Another important form of transformation is the generation of electricity.

Did Lesotho import energy?

Lesotho did not import energy. Energy sources, particularly fossil fuels, are often transformed into more useful or practical forms before being used. For example, crude oil is refined into many different kinds of fuels and products, while coal, oil and natural gas can be burned to generate electricity and heat.

What is Lesotho energy policy 2015-2025?

Lesotho Energy Policy 2015-2025 is a framework policy that sets out the strategic direction of the country's energy sector developments. It is aligned to the Vision 2020 and the NSDP and promotes development of environmentally cleaner renewable energy and increasing its share in the country's energy mix.
