

Liberia spark solar kit

Spark is set to receive a credit line of EUR2 million which will finance the supply of our Spark energy kits. Our pay-as-you-go, modular solar solutions and appliances will connect an estimated ...

Impact DriveN solar infrastructure solutions Renewable energy is a symbol of a bright new future for Africa and for our planet. We aim to provide access to sustainable, high-quality energy systems and infrastructure across Sub-Saharan Africa.

With our modular Spark Kits. They are stackable, scalable and flexible enough for customers to create any solar home system configuration through upgrading and adding appliances.

While yesterday was the important landmark day, it is the actions we do every other day of the year that are far more important in driving systemic change. At Spark, we are committed to gender equality within climate action and pursue this throughout our business.

Spark is set to receive a credit line of EUR2 million which will finance the supply of our Spark energy kits. Our pay-as-you-go, modular solar solutions and appliances will connect an estimated 500,000 off-grid households in Sub-Saharan Africa to electricity with this investment.

While yesterday was the important landmark day, it is the actions we do every other day of the year that are far more important in driving systemic change. At Spark, we are committed to gender equality within climate action and pursue ...
