

Why should Lithuania invest in solar energy?

To be an active partner of society, politicians and business, creating a suitable and sustainable environment for the development of solar energy in Lithuania. We unite solar energy market players to inspire, encourage and help Lithuania to use solar energy as a clean, renewable source of energy, ensuring energy independence and a secure future.

What is the Lithuanian Confederation of renewable resources?

The Lithuanian Confederation of renewable resources successfully pursuing its goal of promoting the wider use of renewable energy sources in the energy sector in accordance with sustainability criteria.

What is a solar industry association?

, the premier association for the European solar PV sector, shapes regulations and business landscapes for solar's growth. is to consolidate Lithuanian companies and research institutions operating in the photovoltaic technology sector in order to increase the sustainability and competitiveness of the national photovoltaic sector.

Modus Asset Management is planning to offer Modus Remote Solar Fund I investment units to Baltic investors. First closing is expected to take place in June 2021. The Fund has a targeted commitment size of EUR20m and will invest in operational solar photovoltaic projects in Lithuania that are leased to clients via remote solar plant mechanism.

Nordic Solar A/S has launched construction work on an 80 MWp solar park in Lithuania. The new solar park is Nordic Solar's second in Lithuania and is located in the region of Svencionys ...

Modus Asset Management and Equinor, owner of Wento - leading onshore renewables developer in Poland have entered into a transaction whereby a fund managed by Modus Asset Management will acquire a 100% stake in a 28 MW turnkey portfolio of ground mounted solar photovoltaic farms developed by Wento.

Modus Asset Management secures EUR 14 million from SEB Bank to finance the purchase of a solar portfolio in Lithuania with bifacial photovoltaic panels and single-axis trackers. This acquisition brings Modus' solar portfolio up to 76 MW and is expected to ...

Nordic Solar is revolutionizing Lithuania's energy landscape with an 80-MWp solar park, powering 26,000 homes and bolstering its capacity to 180 MWp by 2025! News. Technology. Manufacturing. Manufacturing News. Best Solar Panels. Top Solar Panel Manufacturers. ... Top Solar Asset Management Software.

TransitionZero's Solar Asset Mapper (TZ-SAM) is an open-access, global dataset of commercial- and utility-scale solar photovoltaic facilities covering ~19,100 km²; of solar farms. Analysts can download

TZ-SAM to support renewable energy forecasting and grid planning.

Modus Asset Management, a Lithuania-based renewables investor through its Clean Energy Infrastructure Fund (the "Fund"), and Evecon, a solar and wind project developer, have entered into a transaction whereby the Fund will acquire a 100% stake in a 55 MW solar PV portfolio of ground-mounted solar photovoltaic projects in Latvia.. The portfolio is developed by ...

Ank??iai is an operational wind farm, located in the county of Utena, Lithuania. Project consist of 9 wind turbines. Ank??iai Wind Farm is 75 % owned by the Taaleri SolarWind II fund, managed by Taaleri Energia, a Finnish-based wind and solar developer and fund manager and 25 % of an investment company, Atsinaujinan?ios Energetikos Investicijos, managed by Lords LB Asset ...

UK platform Nala Renewables has acquired a 34MW operational solar PV portfolio in Lithuania from Green Genius, entering the country and expanding its presence in the Baltics ... Asset Snapshot Some Solar Plant (150MW) Value: N/A Full Details . Transaction Snapshot Acquisition of Some Company. Value: \$9,838.26m USD Equity: \$9,838.26m Debt: ...

New solar park in Poland receives solid investment ... Since 2015 Lords LB Asset Management has been committed to the UN Global Compact corporate responsibility initiative and its principles in the areas of human rights, labor, the environment, and anti-corruption. ... Management company) is licensed and supervised by Bank of Lithuania as ...

Lithuania-based renewables investor Modus Asset Management said on Thursday that it has entered the Latvian market by acquiring a 55-MW portfolio of ground-mounted solar photovoltaic projects. ... Solar park in Poland. Image by: Modus Asset Management. The firm, through its Clean Energy Infrastructure Fund, bought the package ...

AEI is a Lithuanian fund and renewable energy developer managed by Lords LB Asset Management, with an operating portfolio of 68.1MW of solar assets in Poland and Lithuania and a project pipeline nearly ten times that size for construction in 2022-2024.

These agreements have increased Centrica's portfolio of wind and solar assets under management in the Baltic states to a total of 366 MW. "We're very pleased to continue building on our strong partnership with European Energy. We have set an incredibly ambitious target to expand our portfolio of third-party renewable assets to 30 GW by 2030.
