

What is lundsby renewable solutions?

Lundsby Renewable Solutions is more than just a name. It is our promise that - together with you - we will make both ends of green transition meet and contribute to a future, where more will live in a greener way on our blue planet. A future, where we turn natural resources into sustainable energy. And this future...is right now!

How can lundsby help you in the green transition?

If you wish to play an active role in the green transition by using biomass from agriculture, households, industry, etc., we help you make all ends meet and turn the idea into reality. Lundsby has more than 25 years of experience with developing and providing efficient biogas plants.

Where is lundsby constructing a biogas plant?

Lundsby is currently constructing a biogas plant for Gasum i Götene, Sweden, that becomes operational in early 2025. It will be capable of covering the annual energy consumption for heating and electricity for approx. 6,000 households, or the annual consumption for... At full capacity, the biogas plant will be one of the largest plants in Europe.

Who is lundsby biogas?

Lundsby is the EPC (Engineering, Procurement and Construction) turnkey supplier of the project. The plant is designed to handle around 400,000 tons of biomass per year, corresponding to 120-gigawatt hours (GWh) worth of liquefied biogas (LBG).

Why should you choose lundsby?

Lundsby provides a reliable plant and also helps you to commission the plant well and safely. The good cooperation with our customers and partners ensures that we keep our know-how updated, so we can always develop and optimise our solutions. To your benefit and to the benefit of your economy and the green transition.

Lundsby Renewable Solutions A/S (Lundsby) have signed an EPC contract for the design and construction of a 133 GWh biogas plant in Borlänge, Sweden for our customer, Gasum. The plant will at full capacity be converting approximately 300.000 tons of green sustainable feedstock - agricultural and industrial organic waste - into approximately ...

Lundsby Renewable Solutions is more than just a name. It is our promise that - together with you - we will make both ends of green transition meet and contribute to a future, where more will live in a greener way on our blue planet.

Lundsby is one of Denmark's major biogas developers when it comes to EPC Turnkey projects. We help our customers convert many thousands of tons of biomass into green, CO₂-neutral energy. Our purpose is to contribute to the green transition and transform nature's resources into sustainable energy, so more people can live greener on our blue ...

Vi har revideret årsregnskabet for Lundsby Renewable Solutions A/S for regnskabsåret 01.10.21 - 30.09.22, der omfatter resultatopgø-relse, balance, egenkapitalopgørelse, penge-strømsopgørelse og noter, herunder anvendt regnskabspraksis. Årsregnskabet udarbejdes efter årsregnskabsloven. We have audited the financial statements of Lundsby ...

Lundsby Renewable Solutions A/S udstiller på IFAT i München i maj. Som førende inden for udvikling af biogasanlæg specialiserer Lundsby sig i at omdanne organisk affald til vedvarende biogas, hvilket markant reducerer CO₂-udledningen. Vores projekter, der spænder fra små lokale udvidelser til store industrielle opstillinger, prioritiserer ...

It is Lundsby's goal to turn our knowledge into value for you, for the climate and for the environment - because bottom lines are inextricably linked with each other. If you want to play an active role in the green transition by using ...

Lundsby Renewable Solutions A/S har underskrevet en EPC-kontrakt vedr. design og konstruktion af et 133 GWh biogasanlæg i Borlänge, Sverige for energivirksomheden Gasum. Anlægget vil, ved fuld kapacitet, omdanne cirka 300.000 tons grønt, bæredygtigt råmateriale - landbrugs- og industrielt organisk affald - til cirka 12 mio.

CBO Karsten Hjorth har mere end 30 års erfaring fra biogasbranchen og har ansvaret for forretningsudvikling af Lundsby, Key Accounts samt Projektudvikling af nye markeder og forretningsområder. CTO Gert Rosenqvist har tidligere haft hele Europa som sin arbejdsplads som projektleder i vindmøllebranchen og i kraftvarmebranchen.

As a leader in biogas plant development, Lundsby specializes in converting organic waste into renewable biogas, significantly reducing CO₂ emissions. Our projects, ranging from small local expansions to large industrial setups, prioritize stability, flexibility, and efficiency.

2022 är året då; vi bytte namn till Lundsby Renewable Solutions för att kunna realisera bolagets internationella potential i större utsträckning. Lundsby har mer än 25

års erfarenhet av att utveckla och bygga nyckelfärdiga biogasanläggningar. Bolaget har sitt huvudkontor i Løstrup nära Viborg och ett dotterbolag i Sverige.

Lundsby ha trabajado con biogás y transición ecológica desde 1995, cuando Erik Lundsby Andresen fundó la empresa Lundsby Bioenergi A/S. En 2015, le vendió la empresa a tres personas que continuaron con la misma bajo el nombre de Lundsby A/S. En 2022 cambiaron el nombre a Lundsby Renewable Solutions. Una de las razones es la intención de ...

For more than 25 years, Lundsby has acquired experience within design and construction of biogas plants with very different capacities and specifications. That is the reason why individual solutions are the only standard we know.

Lundsby er på Energistyrelsens "positivliste" Det betyder, at vi hos Lundsby Renewable Solutions besidder de måletekniske og biogastekniske kompetencer der kræves. Vi foretager gerne en gennemgang af jeres anlæg for at kortlægge evt. kilder til metantab, samt underbygge og kvalitetssikre anlæggets egenkontrolprogram.

It is Lundsby's goal to turn our knowledge into value for you, for the climate and for the environment - because bottom lines are inextricably linked with each other. If you want to play an active role in the green transition by using biomass from agriculture, households, industry or elsewhere, we help you turn the idea into reality.

Lundsby Renewable Solutions A/S have signed an EPC contract for the design and construction of a new large-scale biogas plant project in Kiuruvesi, Finland, undertaken by Suomen Lantakaasu Oy. This facility, a central component of the Upper Savo biogas complex, marks a significant step forward in renewable energy and circular resource ...
