For Madagascar, the third African country to join Scaling Solar, a new 30-40 megawatt solar facility will help ease daily interruptions of power service. This island nation suffers from frequent power outages, and under one-third of the population has access to electricity.

The fund is being implemented by a partnership between the government of Madagascar and the World Bank. Under this scheme, 12 solar providers distributing solar systems ranging from solar lanterns to solar home systems will access \$2.5 million. Companies that meet their targets will be eligible for an additional \$25.5 million in subsidies.
