

Madagascar bae battery systems

Where are BAE batteries made?

BAE Batteries USA (BAE USA) is the exclusive distributor for BAE in the USA. The batteries are manufactured in Berlin, Germany, and have an excellent worldwide reputation for quality. BAE USA serves the critical backup power & energy storage requirements of our USA based customers.

What is a BAe electrification program?

The program will leverage more than 25 years of BAE Systems' expertise in electrifying large, heavy-duty industrial vehicles. Today, the company has over 15,000 power and propulsion systems operating in service across the globe. Work on the program will be conducted at the company's state-of-the-art facility in Endicott, New York.

What makes BAE a good brand?

BAE sets the highest quality standards for all of its products and has an excellent worldwide reputation for reliability. A combination of advanced technology microprocessor control and performance-engineered modular construction make our chargers and rectifiers easy to set up, easy to operate, and easy to maintain.

BAE Systems, a leading aerospace and defense company, and Heart Aerospace, a Swedish electric airplane maker, announced a collaboration to define the battery system for Heart's ES-30 regional electric airplane.

To advance the ES-30 battery system, Heart is partnering with BAE Systems, best known for its leading defense and aerospace solutions. The battery system will be the "first of its kind"...
