

Can Mauritania harness wind energy?

Mauritania also possesses significant potential for harnessing wind energy. The country is blessed with strong and continuous wind most days of the year, with an average wind speed of 7 meters per second. This makes it ideal for both onshore and offshore wind farm development.

Should Mauritania invest in wind energy?

A major investment in wind energy infrastructure in Mauritania could not only provide a significant source of renewable energy for the country, but also make a significant contribution to global efforts to reduce reliance on fossil fuels and combat climate change.

Is Mauritania poised to become a major supplier of natural gas?

Mauritania is poised to become a significant global producer of natural gas and a leading player in Africa. With estimated gas reserves of 1400 billion cubic meters, the country has the potential to become a major supplier in the global market.

Why should you invest in Mauritania?

Investing in Mauritania can offer a wide range of opportunities, particularly in the energy sector. With major gas discoveries and large-scale renewable energy projects in development, the country is poised for significant growth in this area.

What is Mauritania known for?

Mauritania boasts a strategic geographic location, spanning over one million square kilometers with a 754-kilometer coastline. Despite its predominantly arid desert landscape, Mauritania possesses a wealth of renewable energy resources (solar, wind and wave), as well as natural gas fields in its offshore territory.

The company continues to develop the strategy and starts a new phase of accelerated growth with "Scale up 2.0". PNE is thus responding both to the positive business development of recent years and to the current market environment, which promotes a growing demand for clean energy solutions and the accelerated expansion of renewable energies.

Driving Mauritania's Energy and Mining Sectors SNIM (Société Nationale Industrielle et Minière) is a mining company based in Mauritania. It was founded in 1974, and it is one of the largest companies in the country, accounting for a ...
