

## Mauritania solar solution contact details

Sheikh Zayed Solar Power Plant, a 15 MW facility in Nouakchott, is the first utility-scale one in Mauritania. It provides 10% of the country's grid capacity, producing 25,409 MWh of clean energy and reducing 21,225 tonnes of CO2 emissions annually. Its 30,000 solar panels, manufactured by Masdar PV, supply power to over 10,000 homes in the capital.

Mauritania boasts a strategic geographic location, spanning over one million square kilometers with a 754-kilometer coastline. Despite its predominantly arid desert landscape, Mauritania possesses a wealth of renewable energy resources (solar, wind and wave), as well as natural gas fields in its offshore territory.
