What is a 30 kW grid-connect solar system?

These 30kW size grid-connect solar kits include solar panels,string inverter,and the racking system for a ground mount. These are complete PV power systemsthat can work for a home or business,with everything you need to get the system up and running. The kits include hardware components only; does NOT include labor.

What is a 30 kW solar system?

These 30 kW size grid-connected solar kits include solar panels,DC-to-AC inverter,rack mounting system,hardware,cabling,permit plans and instructions. These are complete PV solar power systemsthat can work for a home or business,with just about everything you need to get the system up and running quickly.

Why should you buy a 30kW Solar System?

1. The energy consumption of your building ends up as a burden on the budget. A 30 kw solar system helps to alleviate it, if not cover the needs for electricity completely. 2. Solar panels eventually pay for themselves. Payback time depends on the policies in the state and electricity prices, as well on your 30kw solar system price.

What is a 30kW solar PV ground mount kit?

For most homes in the United States this 30kW solar PV ground mounted kit is more than enough to completely eliminate their bill. These 30kW size grid-connect solar kits include solar panels, string inverter, and the racking system for a ground mount.

How long does a 30kW Solar System last?

Payback time depends on the policies in the state and electricity prices,as well on your 30kw solar system price. On average panels pay for themselves in 7-8 yearsin the USA. The average lifespan of solar panels exceeds 25 years,so you can treat them as a reliable and smart investment. 3. Solar improves the public image of your business.

The cost of 30kw solar system is going to depend heavily not only on panels but on solar incentives that you might be able to make use of and on the design of your system. Grid-tie systems are the most simple and cheap option.
