The chart shows that undiluted shipments of bitumen or heavy oil by rail is very competitive with pipelines being 12% to 31% less for rail versus committed pipelines. However, when diluent is added rail becomes uncompetitive. Comparing the diluted versus undiluted costs shows the very large negative impact the "diluent penalty" has on costs regardless of mode of transport.

2020. 2020 saw the global Covid-19 pandemic dramatically affect world economies and the price of crude oil. Altex terminals were deemed an essential service and continued to be fully operational, but with due care and attention to maintain ...
