What is optergy BMS?

Accessible securely via any network-connected device, our system ensures you're always in control, wherever you are. Optergy's BMS solution provides a suite of advanced tools to streamline information access: Create bespoke user profiles with varying levels of access--from full system control to view-only modes.

Why should you choose optergy BMS through leading edge automation?

Tailor experiences for different team members or restrict access to energy management only, focusing on individual energy consumption metrics. By adopting the Optergy BMS through Leading Edge Automation, you're choosing a smart, secure, and efficient way to manage your building's ecosystem. Keep up to date with the latest automation news.

Does optergy integrate with BACnet & Modbus protocols?

Optergy's software integrates with BACnet and Modbus protocols, the industry's standard for HVAC equipment. Users can stay connected and have full control over the building assets. Optergy's built-in tools and applications enable the following smart solutions: With effective monitoring also comes efficient controls.

Who is optergy?

Optergy delivers industry leading integrated Energy Management, Building Automation and Smart Integrated Solutions to the Commercial, Industrial, Healthcare and Institutional building market sectors with great offering of flexibility and ease of use which is unmatched in the industry.

Optergy Malaysia has officially rebranded. Leading Edge Automation will continue to deliver cutting-edge Building Management System solutions, while Operational Intelligence (OI) is focused on offering advanced Smart Building Solutions. To explore more about our services and updated branding, please visit our new websites below:

Optergy delivers industry leading integrated Energy Management, Building Automation and Smart Integrated Solutions to the Commercial, Industrial, Healthcare and Institutional building market sectors with great offering of flexibility and ease of use which is unmatched in the industry.

For contractors, simple and economical means they have access to products like Proton that can help provide high performing small buildings with building and energy management. All this in under an hour? Yes! watch our friend Marc put together a small EMS and BMS project in ...

With Optergy Enterprise BMS, you finally have the capability to automatically control and monitor all your building operations and equipment. Optergy Enterprise integrates building automation, energy management and tenant billing to empower teams to better manage, measure and report on live building data.
